Re: Objection to Proposed Settlement

Bartz v. Anthropic PBC, No. 3:24-cv-05417-WHA

Dear Judge Alsup and Class Action Clerk,

I am submitting this letter to object to the proposed Settlement in the above-referenced case.

I am a member of the Class because my copyrighted works appear on the Works List. I am a rightsholder in at least one such work, identified below:

Riley Malloy Thriller #1	

Danger in the Wind Grid Down Survival #2	978-1-7331241-6-4

Donut Lady Cozy Mysteries Books 1-3 Donut Lady Cozy Mystery #0	978-1-953870-22-3
Elusive Embezzler	978-1-953870-72-8

While some of my titles were traditionally published, I also hold rights in numerous self-published works, many of which appeared on the LibGen list prior to 2022. I object to the Settlement because it only provides payments to authors and publishers who filed registered copyrights, while excluding self-published authors without such registrations.

This is unfair. Many self-published books were also included in datasets that Anthropogenic used to train AI models, and those works should qualify for compensation. The Settlement, as proposed, fails to recognize or provide relief for this significant subset of affected authors.

My objection applies to a subset of the Class—specifically, self-published authors and authors without registered copyrights—because the proposed Settlement does not equitably account for their works.

I am filing this objection pro se. I am not represented by an attorney, nor is any attorney assisting me with this filing. I do not intend to appear at the final approval hearing. I am not opting out of the Settlement.

For these reasons, I respectfully ask the Court to deny approval of the Settlement.

Sincerely,

Judith A. Barrett
